

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) A physical restraint device comprising a primary locking mechanism and a secondary locking mechanism, wherein each locking mechanism includes a luminescent material.
2. (Previously presented) The physical restraint device of claim 1, wherein the luminescent material comprises a self-luminous material.
3. (Previously presented) The physical restraint device of claim 2, wherein the self-luminous material comprises tritium.
4. (Previously presented) The physical restraint device of claim 1, wherein the luminescent material utilizes energy from light source to provide light.
5. (Previously presented) The physical restraint device of claim 4, wherein the luminescent material comprises phosphorus.
6. (Currently amended) The physical restraint device of claim 1, wherein the luminescent material is adhesively attached to the physical restraint device.

7. (Canceled).
8. (Previously presented) The physical restraint device of claim 1, wherein the physical restraint device comprises handcuffs.
9. (Previously presented) The physical restraint device of claim 1, wherein luminescence is provided without electrical power.
10. (Currently amended) A method of manufacturing a physical restraint device, comprising:
providing a primary locking mechanism to the physical restraint device; and
providing a secondary locking mechanism to the physical restrain device,
wherein the primary and secondary locking mechanisms includes a luminescent material.
11. (Previously presented) The method of claim 10, further comprising providing an unlocking mechanism to the physical restraint device wherein the unlocking mechanism includes a luminescent material.
12. (Previously presented) The method of claim 10, wherein the luminescent material comprises a self-luminous material.
13. (Previously presented) The method of claim 12, wherein the self-luminous material comprises tritium.

14. (Currently amended) The method of claim 1013, wherein the luminescent material utilizes energy from light source to provide light.

15. (Currently amended) The method of claim 1413, wherein the luminescent material comprises phosphorus.

16. (Previously presented) The method of claim 10, further comprising providing the luminescent material using adhesives.

17. (Previously presented) The method of claim 10, wherein the physical restraint device comprises handcuffs.

18. (Previously presented) The method of claim 10, wherein luminescence is provided without electrical power.

19-20. (Canceled).

21. (New) The physical restraint device of claim 6, wherein adhesively attaching includes the use of stickers.

22. (New) The physical restraint device of claim 6, wherein adhesively attaching includes the use of glue.

Appl. No.: 10/618,371
Resp. to Office Action Dated February 27, 2004

23. (New) The method of claim 16, wherein the adhesives include stickers.

24. (New) The method of claim 16, wherein the adhesives include glue.
